

# DARRON DANIEL

*Impacting the Lives of Urban Youth*

Darron Daniel is impacting the lives of African American males and youth through his powerful testimony of incarceration and freedom. A former inmate and gang banger, Darron has a unique story of overcoming the trap of the streets and the liberation of igniting communities to impact African American boys and men.

Since 2004, Darron has worked through schools, community organizations and churches to enlighten youth about the dangers of gang membership and the steps to take to avoid their pitfalls.

As the National Coordinator for the UrbanGentz Male Empowerment Program and a Certified Etiquette Instructor, Darron impacts the lives of urban males through etiquette workshops, anger management classes and presentations.

Darron currently resides in Dallas, Texas where he serves as the youth minister at St. Phillips Missionary Baptist Church where he oversees the Young Men for Christ Ministry.

Darron's story encourages young men and challenges them recognize the pitfalls that could lead them away from reaching their full potential.
